Learning Log: Think about data in daily life

Instructions

You can use this document as a template for the learning log activity: Think about data in daily life. Type your answers in this document, and save it on your computer or Google Drive.

We recommend that you save every learning log in one folder and include a date in the file name to help you stay organized. Important information like course number, title, and activity name are already included. After you finish your learning log entry, you can come back and reread your responses later to understand how your opinions on different topics may have changed throughout the courses.

To review detailed instructions on how to complete this activity, please return to Coursera: Learning Log: Think about data in daily life.

Date: 7 Nov 2021	**Course/topic:** Course 1: Foundations: Data, Data Everywhere
	Learning Log: Think about data in daily life
Everyday data	Create a list of at least five questions: 1. Which day of the week should I work for Foodpanda? 2. How many hours a off-day do I give to study? 3. How many hours do I sleep everyday? 4. How much money do I spend on non-necessary stuff? 5. How many cities do I visit every two months?
Reflection:	Write 2-3 sentences (40-60 words) in response to each of the questions below.
Questions and responses:	Now, select one of the five questions from your list to explore. *Selected question*: Which day of the week should I work for Foodpanda? ● What are some considerations or preferences you want to keep in mind when making a decision? *I need to see which days I am free from my other job, how many free hours I have for that, weather conditions, any other jobs are there or not.* ● What kind of information or data do you have access to that will influence your decision? *Shift plans of Flink, shift plans of Foodpanda, weather data and so on.* ● Are there any other things you might want to track associated with this decision? *Which day of the week I get more tips, or which day there are few orders*
